Blood and Ashes

In the topic "DNA", a short introductory text presents the DNA, their bases and the interactions between them, showing the action of intermolecular forces in defining the three-dimensional structure.

A summary of the law and practice of real actions: with an appendix of practical forms

There were certain sentences that showed me Sherry has the making of a good writer, but without proper editing it will be a slow grind. One thing sets it apart though, and that is the overhanging shadow of the kraken.
